Research interests

I currently run my own research project to develop a conventionalist account of mathematical truth, funded by the *Icelandic Research Fund* (RANNÍS). It is based on my previous work on the rule-following paradox and the philosophy of mathematics.

As a part of this work, I'm also writing papers on inference, what it is to follow a rule, as well as semantic dispositionalism.

Areas of Specialisation: Philosophy of language, philosophy of mathematics, logic, Wittgenstein, the rule-following paradox

Areas of Competence: Metaphysics, epistemology, history of analytic philosophy.
